SOFAS AND ARMCHAIRS

Lounge

Between Comfort & Conversation

Some spaces invite us to focus.
Others to connect, gather, learn or pause.
The best ones move effortlessly between them.

Ancillary products designed to support every purpose,
every interaction and every experience in between.

Designed as a modular sofa, About Face draws attention with its minimal and functional structure. Available in a variety of colors and fabrics, the About Face sofa easily adapts to different spatial settings.

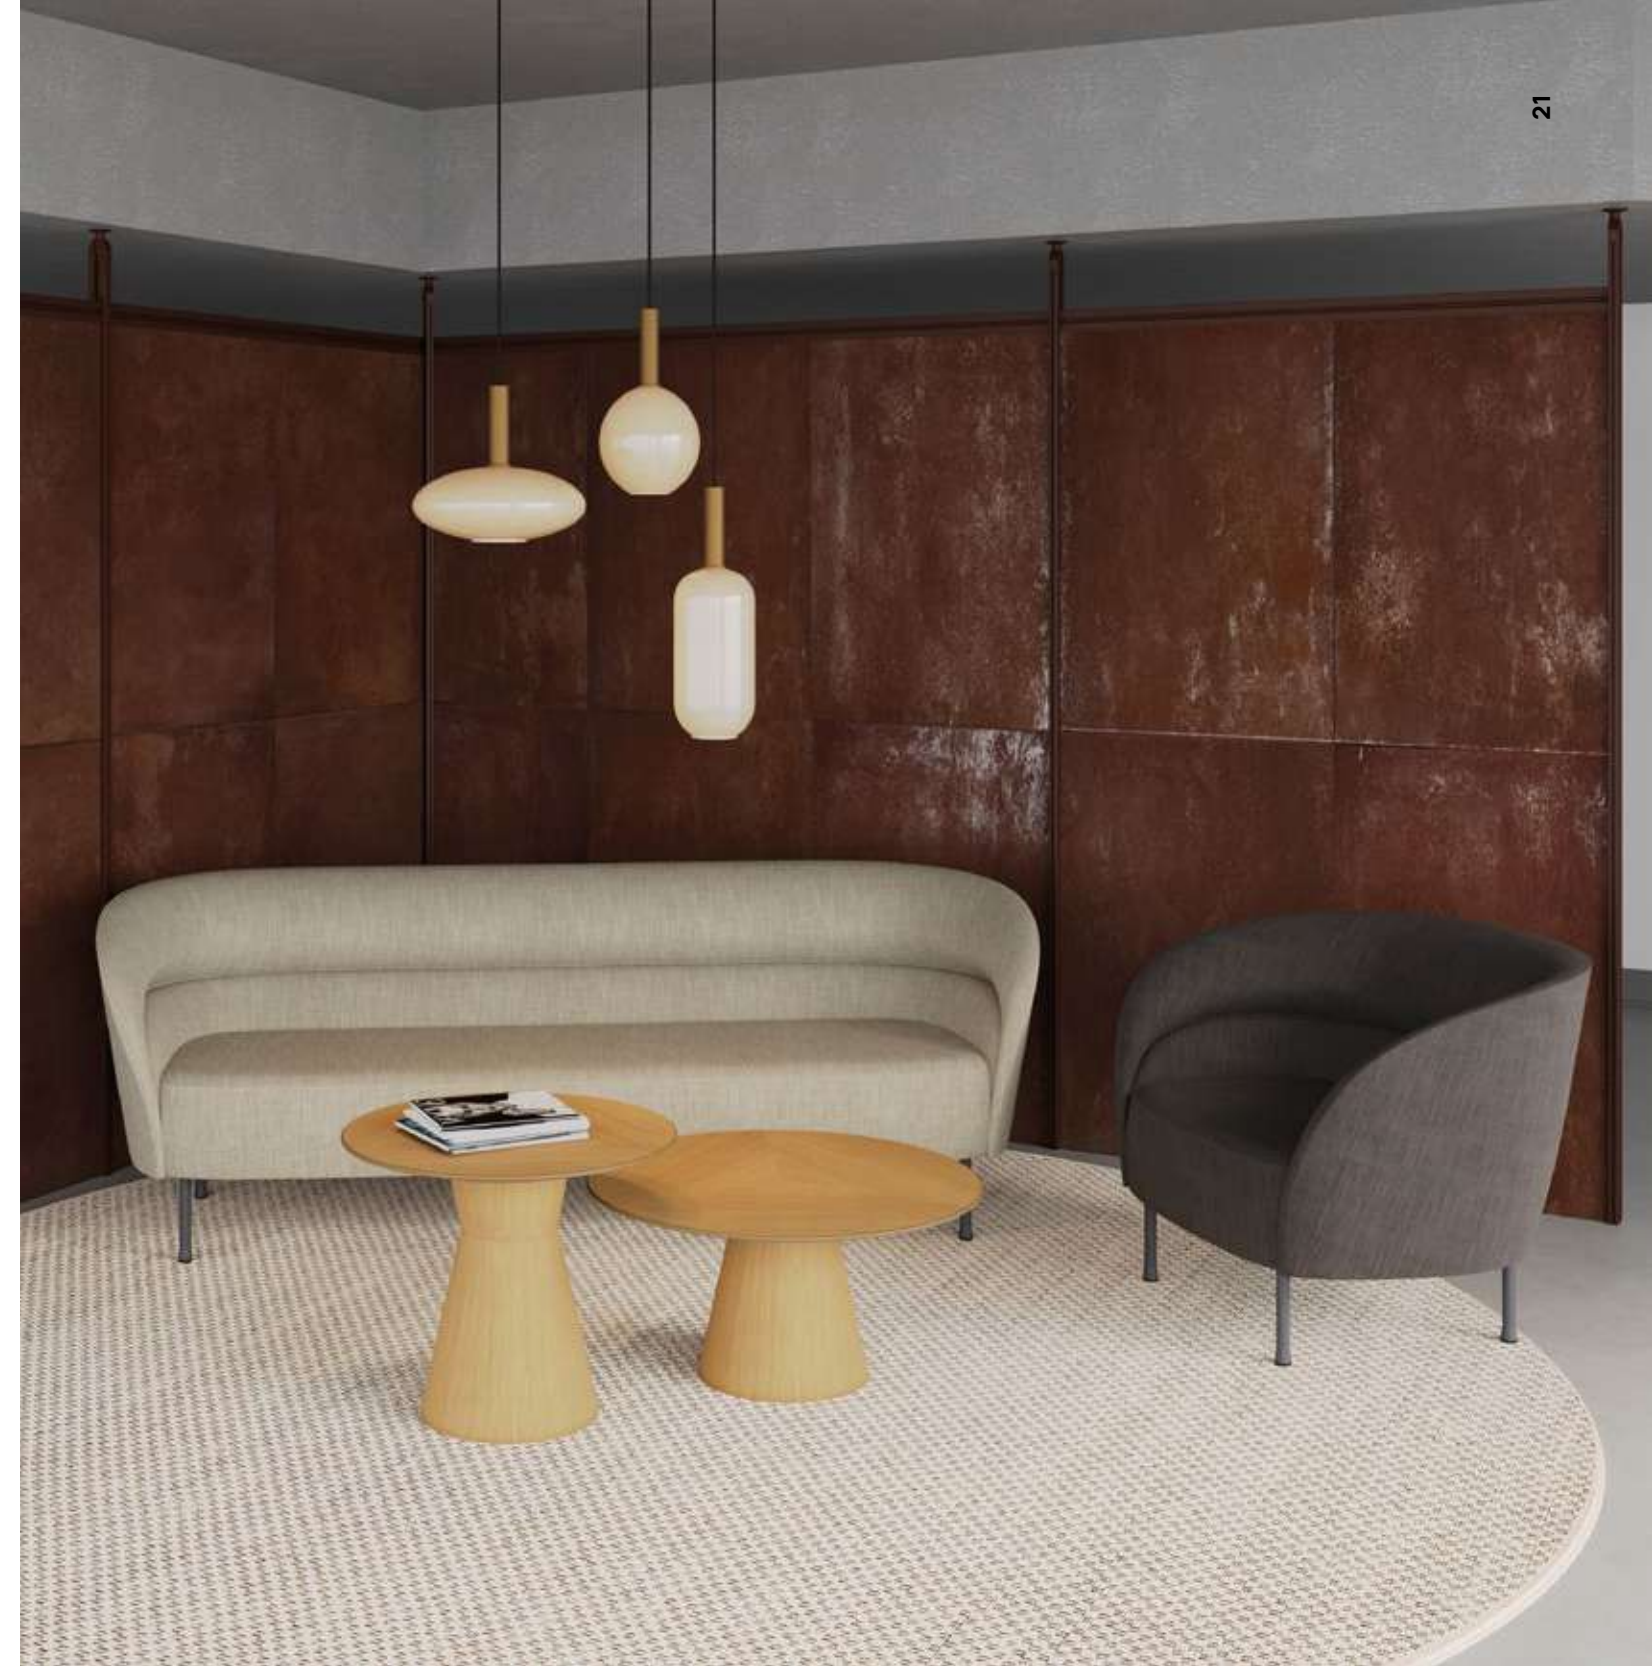

Idan has both a stylish look and a comfortable use, with its quilted seating font, back stitch details and rounded lines. For users who prefer a stylish design in offices, Idan can easily adapt to different uses with its modular versions.

Denver stands out with thoughtful details that bring elegance to its understated form. Subtle angles along the back edges and armrests create a cohesive and refined silhouette.

Platan masterfully demonstrates how minimal design and simple lines can create a powerful impact. In addition to its modular configuration, Platan offers two- and three-seater sofa options, bringing the elegance of simplicity and a sense of modern strength to waiting and communal areas.

Corn offers natural lumbar support through its carefully sculpted backrest curvature. With its elegant lines, ergonomic back form, and minimal silhouette, it brings both aesthetic value and comfortable seating to waiting and working areas.

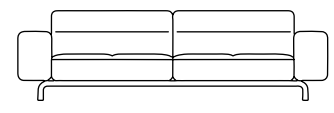

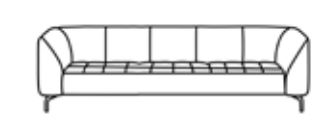

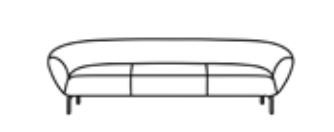

Summer combines a low-seating form with flexible modularity, enriched by pouf and backrest options. Its quilted detailing creates a warm, inviting and comfortable seating experience.

Kurve, which takes its name from the curved structure of its backrest, stands out with its refined details, seamless integration of the backrest, armrests and seat, and elegant leg structure.

Between Spaces explores

these evolving connections through an ancillary approach to furniture – designed to adapt, connect and inspire across different environments.

Designed by Studio Schrofer, Vigo brings a distinctive approach to waiting-area seating. Combining comfort and refined design, it offers a unique seating experience in office environments, both visually and functionally.

Trono offers a comfortable seating experience with its wide seat, curved backrest, headrest, elevated structure, and pouf. The adjustable and lockable head cushion, together with the slim, outward-facing armrests, gives Trono a modern and distinctive look.

Verev Armchair brings a sophisticated character to modern living spaces with its clean lines and strong details. Its ergonomic form, generous seat depth, and supportive backrest provide lasting comfort. With its soft appearance and timeless design, Verev adapts seamlessly to both residential and contract spaces.

Narm brings form and function together with a wooden frame that reflects the warmth and simplicity of Scandinavian design. Refined material details and cushioned armrests enhance its distinctive character while providing a comfortable seating experience.

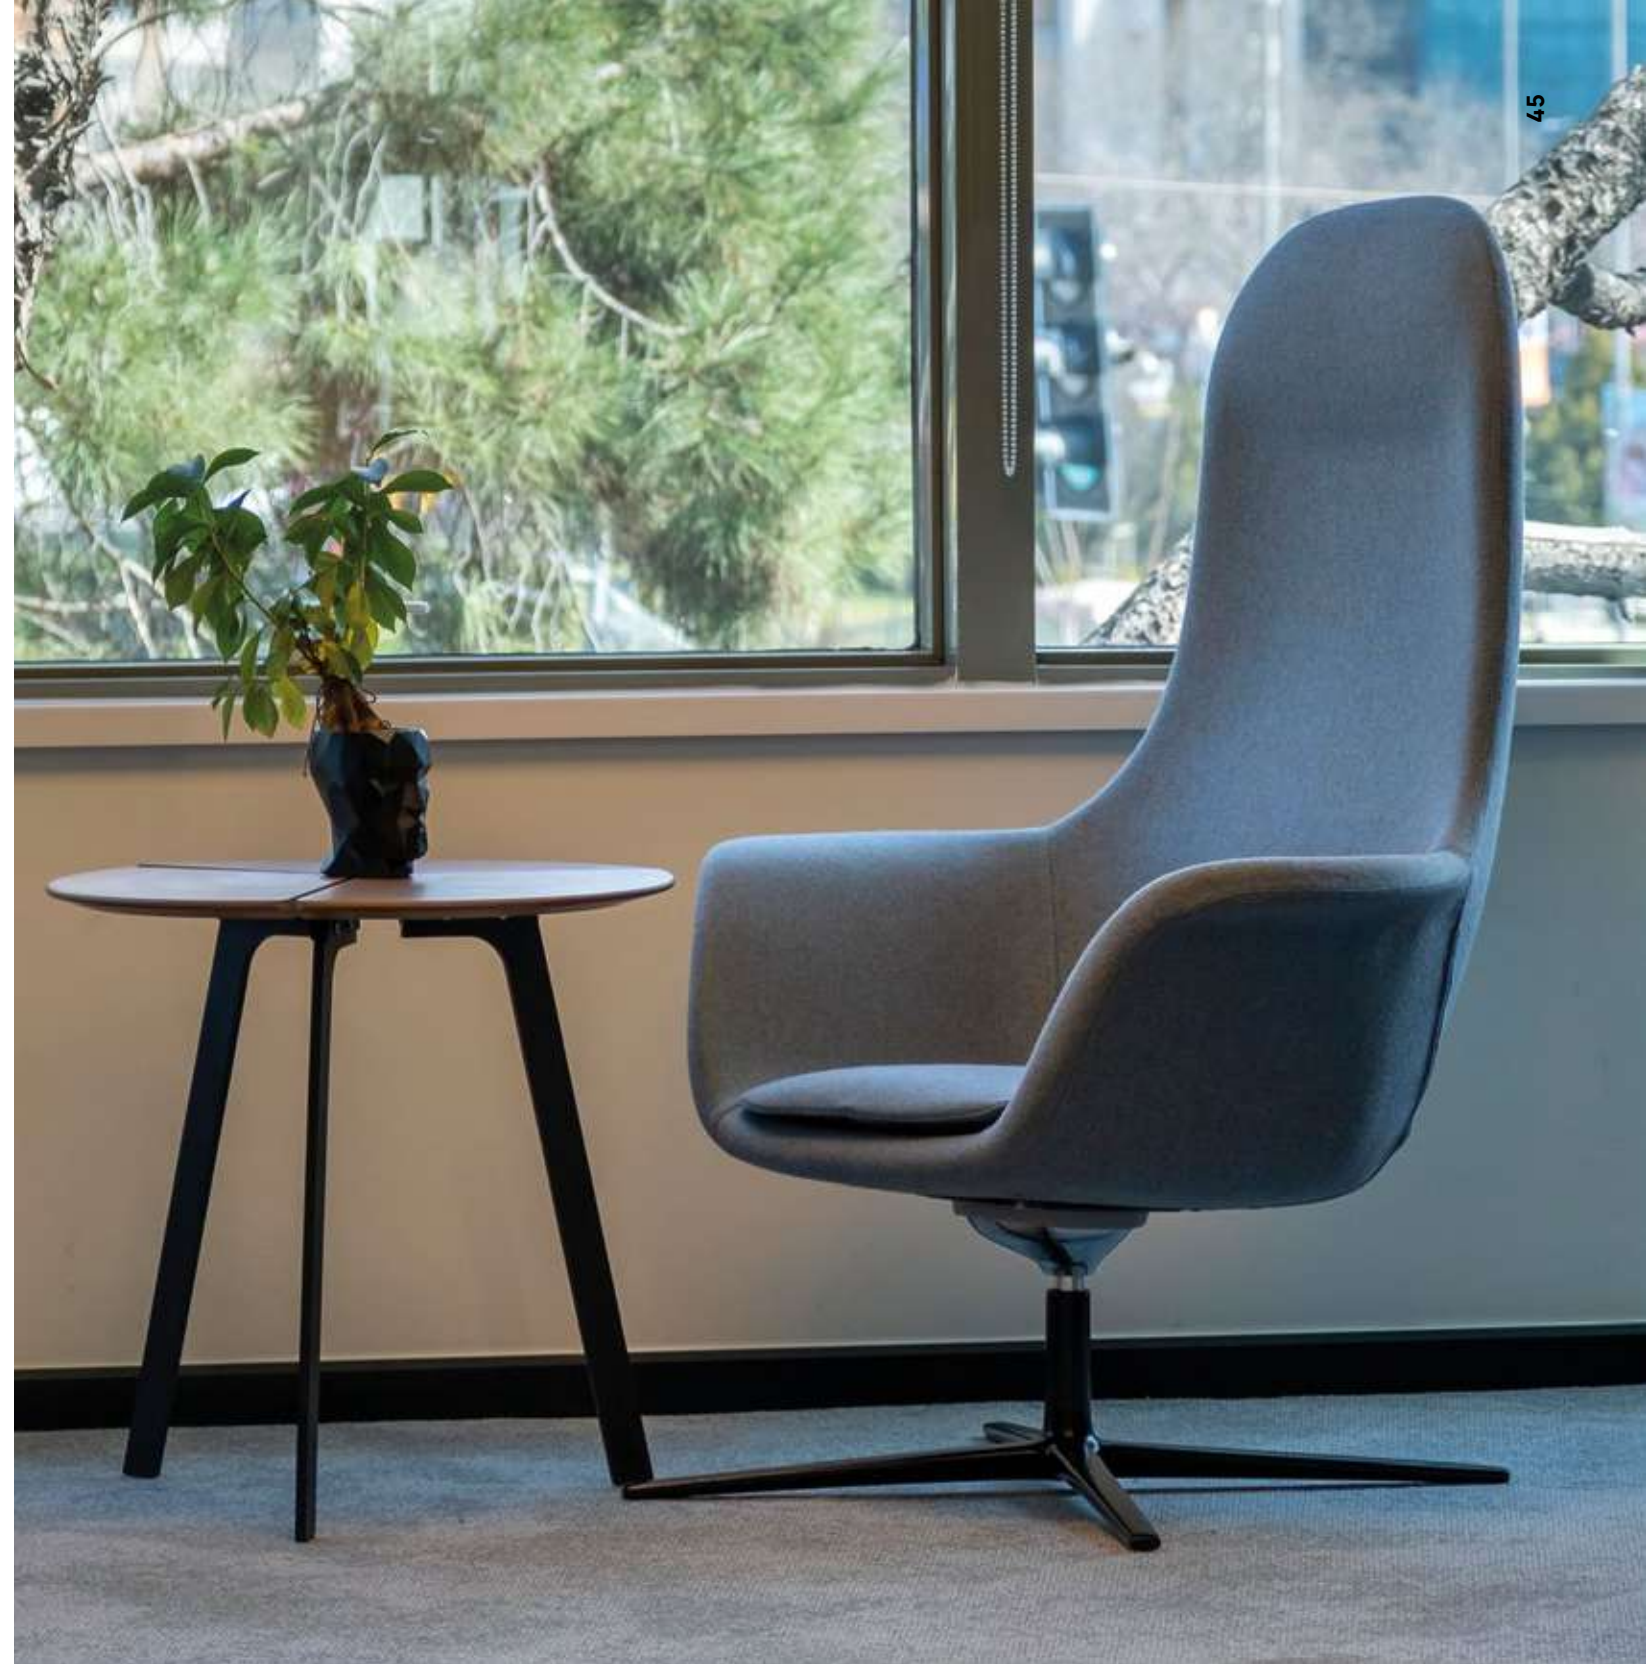

Hull offers a soft and flowing appearance with its curved back structure, providing an ergonomic seating experience that comfortably surrounds the user. Available with or without a headrest, the series also offers fixed-leg and rocking mechanism options.

Orbita features a pure and minimal design with rounded contours resting on a refined metal frame. Available in single and double options, it brings a light, modern and compact character to waiting areas.

Aura reflects Nordic minimalism with its distinctive form and refined simplicity, creating a sense of privacy through its enveloping structure. Available in low and high-back models, it offers wooden or metal leg alternatives and a position-return swivel mechanism.

Polar combines distinctive body designs with high and low-back alternatives, offering lasting comfort through its ergonomic curved form and integrated seat cushion. Available with wooden, 4-star and flat 4-star bases, selected models also feature a backward-flexing mechanism.

Twins is defined by two forms inclined towards the center, offering comfort with its wide seat and supportive back structure. Its distinctive leg design echoes the movement of the body and is available in chrome-plated or epoxy-painted finishes.

Platan Armchair masterfully demonstrates how minimal design and simple lines can create a powerful impact. With its enveloping curved form and refined proportions, the armchair combines sculptural elegance with a comfortable and inviting seating experience.

Technical Overview / Armchairs

Product: Vigo 	Mechanism: Aluminum tilt mechanism Seat: Different layers of foam Legs: Chrome plated metal legs Upholstery: Fabric and leather	L : 35 in / 877-887 mm W: 31 - 35 in / 777-877 mm H : 29 - 42 in / 724-1044 mm

Work

Between **Focus & Flexibility**

Today's workplaces shift throughout the day, adapting to different people, **tasks and ways of thinking.**

Carna stands out with its minimal design, ergonomic structure, and comfortable seating experience. Available in low-back and high-back versions, it adapts to different workspace needs. An optional headrest for the high-back version makes Carna particularly suitable for executive offices while adding a refined aesthetic.

Impero brings high-level comfort and functionality to its design, offering a distinctive appearance with stitching details on the back surface. With short and long backrest alternatives, Impero is available as both a manager and executive office chair.

Talia brings a distinctive interpretation to executive and operational office chairs with its contrasting back and outer shell. Its chrome-plated, leather-covered armrests give the chair a substantial and refined appearance.

Tiana office chair series, with its technical features, is offered as a simple and comfortable alternative to operational workspaces. Tiana, which has operational, executive and meeting chairs, offers an elegant look with its star leg mechanism, fabric and leather options.

Technical Overview / Chairs

Product: Carna 	Structure: Polyurethane Seat: Polyurethane Legs: 5-star aluminum legs Upholstery: Leather	L : 25 in / 615 mm W: 29 in / 720 mm H : 54-56 in / 1350-1410 mm 
Product: Impero 	Structure: Polyurethane Seat: Polyurethane Legs: 5-star aluminum legs Upholstery: Leather	L : 29 in / 720 mm W: 30 in / 755 mm H : 51-55 in / 1290-1390 mm 
Product: Talia 	Structure: Polyurethane Seat: Polyurethane Armrest: Aluminum fixed armrests Legs: 5-star aluminum legs Upholstery: Leather	L : 30 in / 760 mm W: 29 in / 720 mm H : 50 in / 1260 mm 
Product: Tiana 	Structure: Polyurethane Seat: Polyurethane Armrest: Black plastic Legs: 5-star aluminum legs Upholstery: Leather	L : 30 in / 760 mm W: 29 in / 720 mm H : 50 in / 1260 mm 

EXECUTIVE DESKS

Work

Between
**Ideas &
Action**

Every project begins with a conversation.
Every conversation begins with a space where
people feel comfortable sharing ideas.

**Thoughtfully designed furniture creates the
conditions for collaboration to happen naturally.**

Tear executive desk, iconic with its conical leg structure, takes executive tables to the next level with its unique design. Combining sporty and stylish features, Tear brings elegance to executive rooms with its ellipse tabletop, conical legs and functional storage area.

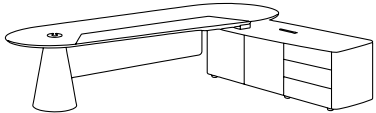

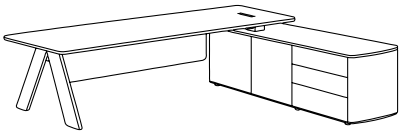

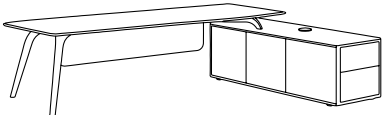

Meliades Executive Desk stands out with its distinctive A-shaped leg design. Two wooden panels are joined by a natural wood veneer strip using a special construction technique, creating generous freedom of movement for the user.

Polka blends modern office aesthetics with refined details. Its natural wood veneer tabletop adds warmth, while slim metal legs create a light and elegant appearance. The ribbed glass sideboard combines functionality with a contemporary approach to storage. With minimalist lines and strong material details, Polka brings prestige and comfort to executive workspaces.

Technical Overview / Executive Desks

Product: Tear 	Types: Single Desks and Desks with Etagere Structure: Natural wood coated MDF Legs: Natural wood coated on metal legs	L : 87-95-103-111-119 in / 2200-2400-2600-2800- 3000 mm W: 44 in / 1100 mm H : 30 in / 740 mm 
Product: Meliades 	Types: Single Desks and Desks with Etagere Structure: Natural wood coated MDF Legs: Special molded aluminum profile legs	L : 95-103-111-119 in / 2400-2600-2800-3000 mm W: 44 in / 1100 mm H : 30 in / 740 mm 
Product: Polka 	Types: Single Desks and Desks with Etagere Structure: Aluminum table Legs: Molded aluminum injection legs	L : 79-87-95-103-111-119 in / 2000-2200 2400-2600-2800-3000 mm W: 40 in / 1000 mm H : 30 in / 740 mm 

MEETING TABLES

Work

Between
**People &
Ideas**

Coming together creates space for something new. Different perspectives are shared, conversations unfold and ideas begin to take shape.

Ersa meeting tables are designed to bring people closer – creating spaces where connection, collaboration and shared thinking happen naturally.

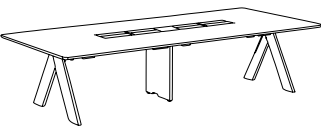

The conical leg structure and round-shaped tabletop of Tear allow the table to reflect a modern design approach in workspaces with a minimal stance. The layered tabletop structure and lines stand out as fine details that integrate with its plain design.

Meliades meeting table offers an extraordinary appearance with its A-shaped leg design and natural wood veneer details. Its layered top and special cut finishes create a stylish look, while offering flexibility and ideal size options for meeting areas hosting larger groups.

Technical Overview / Meeting Tables

Product: Tear 	Types: Round and Ellipse Structure: Natural wood coated MDF Legs: Natural wood coated on metal legs	L : 95-119-142-166-189-221-237-260-284-308 in / 2400-3000-3600-4200-4800-5600-6000-6600-7200-7800 mm W: 40-44-48-56-63-71 in / 1000-1100-1200-1400-1600-1800 mm H : 30 in / 740 mm 
Product: Meliades 	Types: Rectangular Structure: Natural wood coated MDF Legs: Special molded aluminum profile legs	L : 87-95-103-111-119-126-142-166-189-213 in / 2200-2400-2600-2800-3000-3200-3600-4200-4800-5400 mm W: 56 in / 1400 mm H : 30 in / 740 mm 

COFFEE TABLES, STORAGE AND ACCESSORIES

Details

Between Object & Atmosphere

Sometimes the smallest elements have the greatest impact.

Materials, accessories and thoughtful details complete the experience and shape the character of a space.

The iconic leg design of the Tear family extends into living spaces through a versatile collection of coffee and side tables. Available in different heights and material options, Tear features round and oval tabletops that complement its contemporary design.

Bringing a different interpretation to the modern coffee table design with its sculptural leg detail, Olivia comes together with different table sizes to create a stylish coffee table combination for your living areas.

Stoneage has a modern design with its angled tripod leg structure and pebble-shaped coffee tabletop that comes with different material alternatives. The angled form of the leg structure under the table saves space, while making the side table versions easier to use next to the sofa.

Ersa's iconic coffee table design has been reinterpreted. The 1962 coffee table preserves its original character, adding a fresh touch to living spaces with its curved chrome legs and glass top. Its classic and simple design highlights functionality through the refined combination of two materials.

Designed as a stylish complement to interiors, Squadro features distinctive legs available in steel or epoxy-painted finishes and in various geometric forms. Its glass tabletop creates a modern and elegant appearance, while the centrally positioned metal legs remain visible from every angle thanks to the transparency of the glass.

Aqua, which can be preferred as a marble, wooden or lacquered surface, becomes special with its extraordinary form and design details. Aqua, which attracts attention with its unique table forms as well as its asymmetrical metal legs, brings a modern look to almost any space.

Combining its simple form with a tabletop supported by an angled metal tube, Inclined offers a design that is both minimal and functional. With its double-module option, it creates a cohesive setup where the elements complement each other seamlessly.

With its rounded lines, Coloni has a soft and balanced appearance. Available in different heights and tabletop sizes, it adapts easily to a variety of uses and environments.

Epic brings a distinctive character to living and working spaces with its sculptural form and refined material combination. Its lacquered interior, leather-covered outer surface and precisely finished edges create a bold yet elegant appearance. Available in two sizes, Epic can be used as both a side table and a coffee table, offering a versatile complement to contemporary interiors.

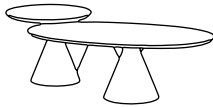

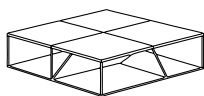

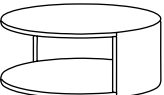

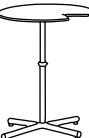

Serving multiple functions with minimal material use, Hi can function both as a table and a magazine rack with its metal legs and tray compartments. Its removable tray separates from the body, enhancing the table's functionality in a variety of spaces.

Corner is designed to complement work tables with its compact form and height-adjustable structure. Featuring metal legs and a lacquered top in various color options, it brings flexibility and functionality to workspaces with an adjustable height of up to 75 cm.

Technical Overview / Coffee Tables

Product: Tear Various sizes and measurements. 	Table Top: Natural wood coating, marble & glass Legs: Bended metal sheet coated with natural wood	L : 31 in / 800 mm W: 31 in / 800 mm H : 16 in / 400 mm

COMMON SPACES

Shared

Between Connection & Community

The most memorable spaces are the ones that bring people together. From informal conversations to spontaneous collaboration, shared environments encourage interaction, exchange and a sense of belonging.

Furniture designed to support every connection, naturally.

Inspired by the form of a sound wave, Deflex allows users to create a variety of compositions while helping reduce reverberation and sound propagation. Its colorful design brings a playful character to acoustic environments.

Bringing a different design approach to acoustic panel alternatives, Nock allows you to create different patterns on the wall when placed side by side with its square structure.

Yoka bar table, which is offered with round and square table options, carries the characteristic leg structure of its family. Yoka bar table, which is diversified with different table colors, is preferred in common areas.

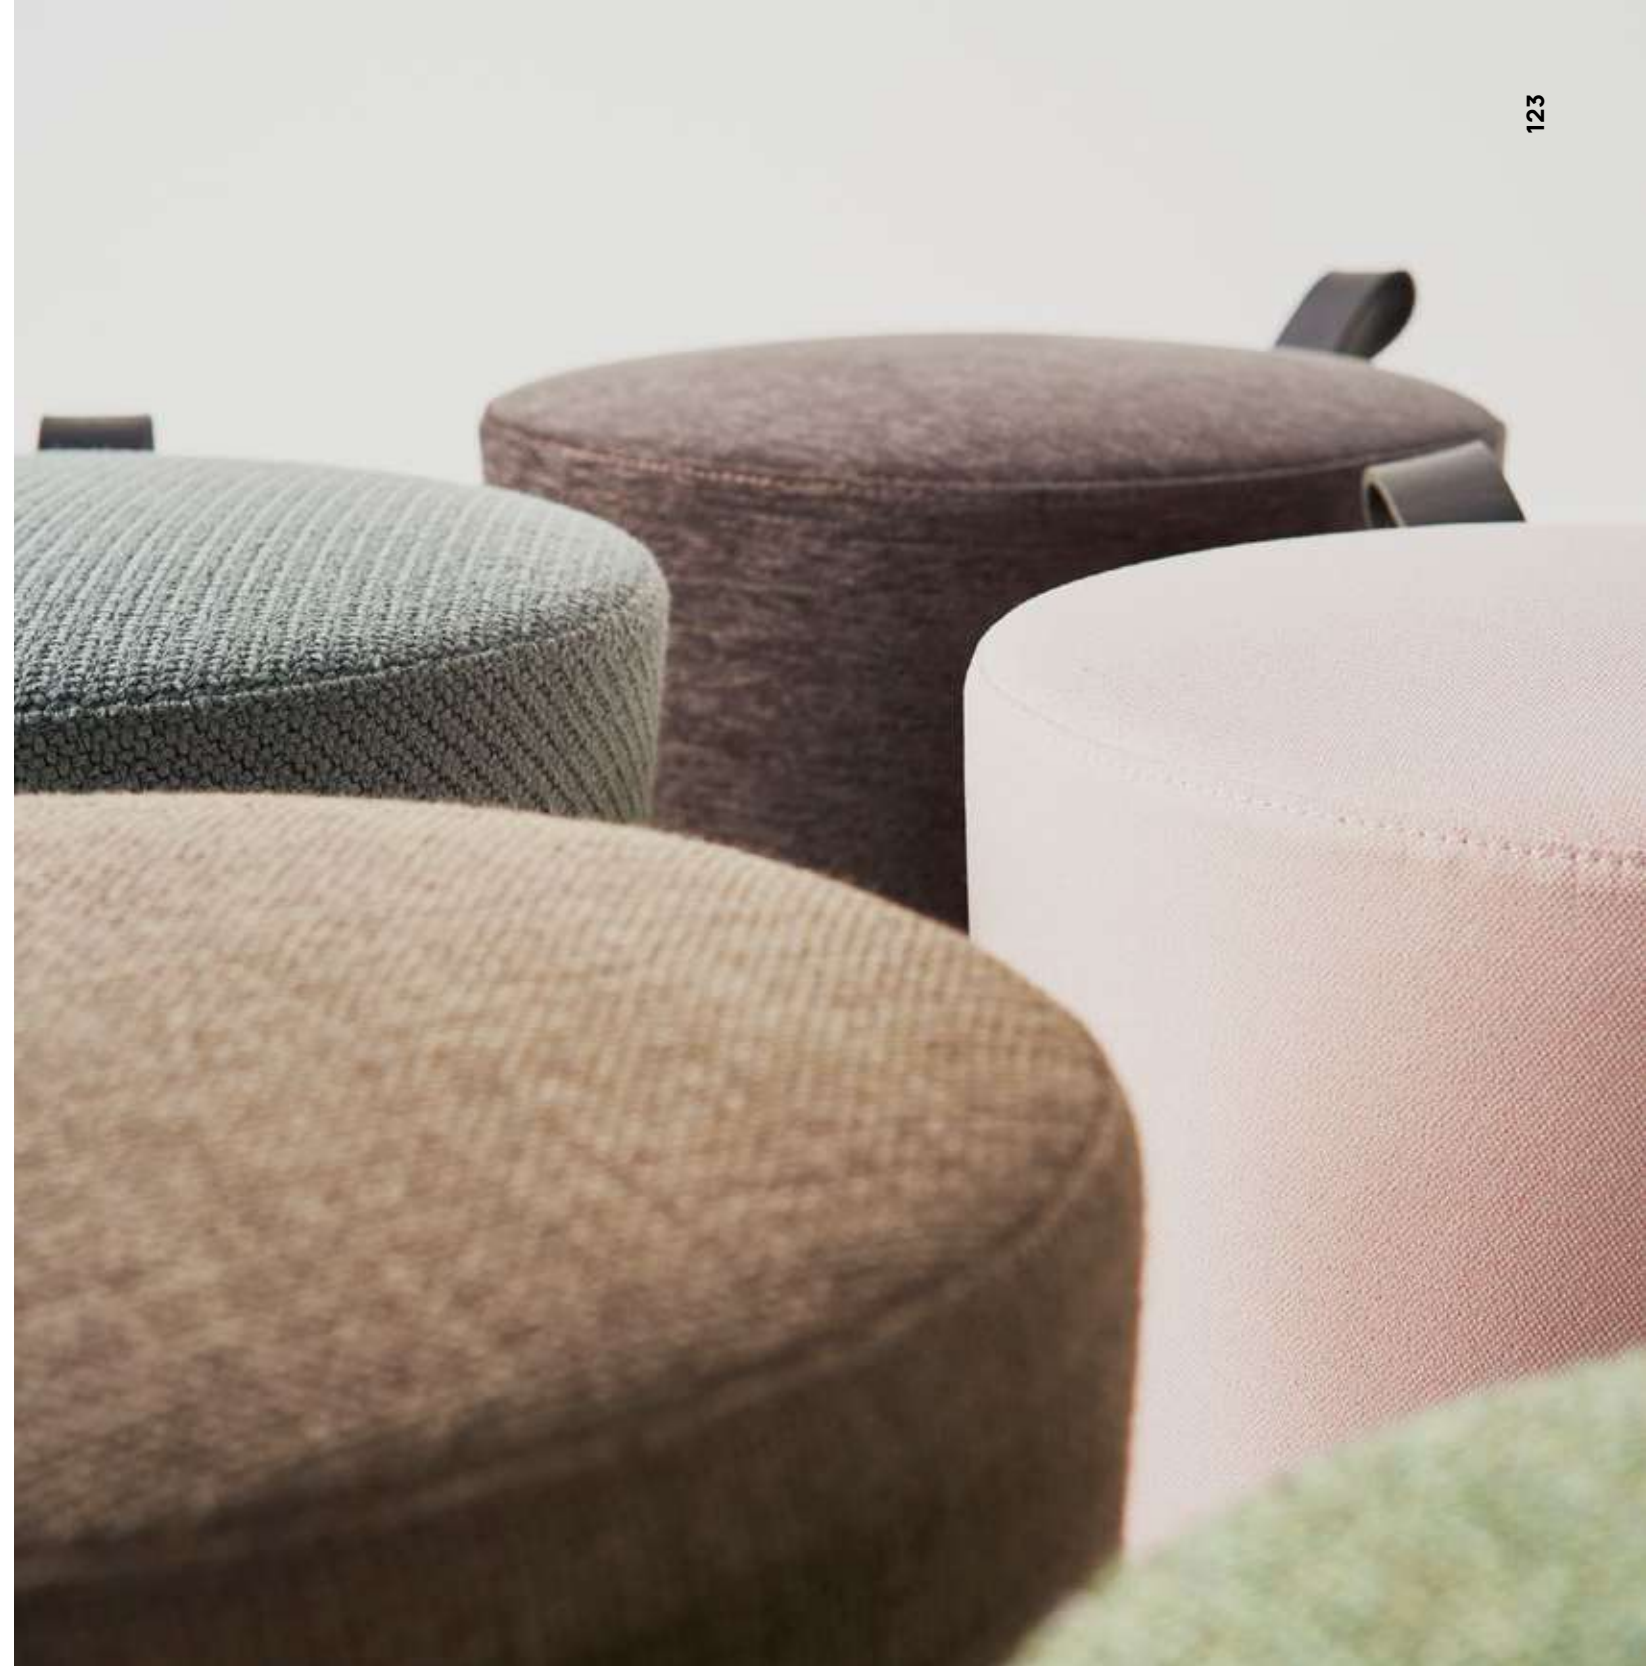

Meliades Bar Table offers a distinctive look with its tapered form and refined design. Available in various sizes, it adapts easily to different needs while bringing a stylish touch to common areas.

Kilig stands out with its distinctive twisted metal legs and specially wax-coated tabletop. Available in two sizes, its design is defined by the sphere detail at the center of the legs.

Tear Bar Table stands out with its distinctive conical base and elegant form. Available in two sizes and various veneer options, it brings a refined and contemporary character to cafés and restaurants.

Follow Me combines a simple, comfortable form with angular and linear elements that create a distinctive geometric movement. Its ergonomic structure and integrated leather handle provide comfortable seating and easy mobility.

Between Spaces explores
these evolving connections

through an ancillary approach
to furniture — designed to adapt,
connect and inspire across
different environments.

Nobis offers a modular and easy-to-assemble structure that functions as both seating and a space divider. With pouf, low-back and high-back modules, it allows flexible configurations complemented by table and lighting attachments.

Cenot draws inspiration from the angles of natural forms, offering flexible solutions with three modular configurations. Its integrated side table enhances functionality, creating comfortable and well-organized seating in shared spaces.

The bar chair member of the Polar series can be used in dining areas and common areas. The model, which is produced as a sled based, offers a comfortable use with its upholstered structure.

With its polypropylene shell structure, a variety of color options, and diversified base alternatives, Tiam is an ideal seating solution for offices, cafés, and various living spaces. Combining aesthetics with its design and comfort with its ergonomics, it offers a versatile user experience.
